

Advanced SMSF Training Day 2011

More than just an introduction to Self Managed Super Funds, this concise training day is not to be missed!

Heffron's one-day training session has been designed to meet the needs of professionals who require a more advanced and practical knowledge of SMSFs. Heffron's broad range of experience and expertise across the firm allows you to access practical insights into SMSFs in particular and the industry in general.

As SMSF practitioners for over 10 years, we understand what will work from a practical point of view and what will not.

This is our promise to you:

- High-level technical content
- Real client scenarios with unique and practical solutions
- Accurate and up-to-the minute information
- Highly experienced speakers

This is one day you won't regret leaving the office for!

All of the speakers will be available throughout the day to talk to you in more detail about any specific issues you would like to discuss and the less formal workshop sessions will give you an opportunity to participate in discussions about practical SMSF issues.

Attendees will be entitled to SPAA CPD points (19 in 2010) and FPA CPD points (10 in 2010) and the sessions will also be eligible for CPD self assessment for applicable accounting bodies / SMSF auditor requirements.

Don't miss this innovative and thought provoking SMSF Training Day!
